DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 61-112, drawn to a method, classified in class 438, subclass 99.
 - II. Claims 113 and 114, drawn to an apparatus, classified in class 118, subclass 1+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process as claimed can be practiced by another material different apparatus such as, an apparatus that does not require a deposition chamber having a substrate positioned therein, but rather has multiple deposition chambers, as in a cluster-type apparatus, and a transfer mechanism for the substrate, wherein for each of the chambers, one vessel with the precursor is provided. In addition, the apparatus as claimed can be used to practice another and materially different process, such as ~~an~~ *process* ~~apparatus~~ wherein the inlet does not have to direct the vapor to the substrate, rather it fills the chamber, exposing the substrate.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Ann M. Muetting on 4/19/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2812

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
